Frontier Firm Full-Day Copilot Enablement Workshop

A complimentary, hands-on Copilot workshop for MSP Corp customers—focused on real workflows, practical prompting, and responsible adoption across Microsoft 365.

Complimentary Customer Enablement Session

Offered exclusively to MSP Corp customers as part of our ongoing commitment to Copilot education and adoption support.

Register for June 16

This full-day session is designed to help teams explore Copilot capabilities in a guided, practical environment. The focus is education, exposure, and confidence—so teams understand how Copilot fits into their day-to-day work.

Who This Workshop Is Built For

Ideal for operational teams including HR, Finance, Operations, Sales, Field Services, Customer Service, and IT, who rely on Microsoft 365 every day and want to fully leverage Copilot's capabilities.

If your teams touch Outlook, Teams, Word, Excel, or PowerPoint, this workshop transforms how they operate.

What's Inside the Full-Day Frontier Workshop

1 The New Frontier of AI & Copilot (45 min)

Discover how top-performing frontier firms use Copilot to:

- Streamline decisions
- Reduce operational friction
- Empower lean teams to operate with enterprise-scale intelligence

Your session starts with clarity, not complexity and shifts AI from hype to practical, immediate value.

2 Copilot Chat Live Demonstrations (60 min)

See real workflows come to life using the free version of Copilot Chat. Experience how leaders, HR pros, finance teams, and IT departments:

- Summarize information instantly
- Draft & structure content on-demand
- Analyze complex data with ease
- Clear operational bottlenecks in minutes

This is the moment your team moves from learning about Copilot... to experiencing its impact.

Demonstrations may reference features that depend on licensing or configuration. This session is educational and not a deployment engagement.

3 M365 Copilot Live Demonstrations (60 min)

Explore Copilot capabilities across Microsoft 365:

- Work IQ insights
- Intelligent recap
- Cross-app orchestration
- Automated document creation
- Predictive, data-driven guidance

Your team will see their own work—only faster, smarter, and frictionless. This is when "Why AI?" becomes "Wow, this changes everything!"

4 Prompting Masterclass for Frontier Innovation (45 min)

Learn the GCSE framework (Goal - Context - Source - Expectations) and transform Copilot into a high-performance thinking partner. Your teams will:

- Practice proven prompt structures
- Break down real use cases
- Turn hours of work into minutes

This is where frontier operating truly begins.

Extended Learning Topics (Overview)

These topics are discussed at a high level to provide awareness and context.

Copilot Readiness & Governance (45 min)

Build a secure, scalable foundation for AI adoption. You'll leave with a clear roadmap for:

- Data governance
- Access and security controls
- Change management best practices

This module gives your organization the guardrails, clarity, and confidence needed to deploy Copilot safely and at scale; ensuring your AI adoption is built on a strong, secure foundation.

Driving Adoption: Becoming Agents of Change (60 min)

Turn early users into internal champions. Learn how to:

- Overcome skepticism
- Build momentum
- Strengthen cross-department alignment

This session ensures your Copilot rollout succeeds long after the workshop.

Building Agents at Every Level (60 min)

Demystify Agent creation with a clear, approachable path:

- **Simple Prompt-Built Agents** for answers and content
- **Intermediate Agents** using skills, reusable prompts, and knowledge bases
- **Advanced Agents in Copilot Studio** integrating apps, data, and workflows

Your teams will see how accessible and powerful Agents truly are.

Why Frontier Firms Choose This Workshop

Because it delivers:

- **Immediate clarity** on how Copilot transforms your work
- **Hands-on experience** instead of theory
- **Department-specific scenarios** your teams recognize instantly
- **A roadmap to scale AI responsibly** across the business

This isn't training. It's a turning point.

Ready to transform the way your teams work every day?

Empower your people with the skills, confidence, and hands-on practice they need to operate at frontier speed. This full-day Copilot Workshop gives your organization the clarity, structure, and practical workflows to unlock meaningful productivity gains, starting immediately. If you're ready to eliminate friction, elevate output, and build AI-enabled teams, this is where the shift begins.
